Emergency / Trauma Services

- The hospital has a 24 hour emergency service to attend to casualties.
- Ambulatory services are also available round the clock.
- The emergency service has a separate Operation Theatre and 5 Beds in the Trauma Unit. The service has a staff completely dedicated to casualties and the trauma unit.
- As the Hospital is located in Sawangi (Meghe), its proximity to the Nagpur - Aurangabad highway makes the trauma ward an important feature of the emergency ward medical services, where timely intervention is critical in case of accident cases.
- The Emergency Department at Acharya Vinoba Bhave Rural Hospital provides care to patients with urgent medical conditions ranging from complex problems such as heart attacks and strokes to simple but pressing conditions such as cuts and broken bones.
- Our team includes multi-specialists, nurses trained in emergency and critical care.

- **Location:** SHALINITAI MEGHE SUPERSPECIALITY CENTRE, Ground Floor
- **Capacity:** 30 bedded with state of art facilities
  - 24 Hour’s emergency services
  - 5 dedicated bed for trauma ICU
  - 2 - Advance Cardiac Life Support with trained team
  - 4 - Basic Life Support
  - Trauma (Emergency) Operation Theatre with Recovery ICU
  - Latest medical equipments & instruments
  - Round the clock Causality Medical Officer
Intensive Care Units

The Hospital has the following well equipped ICUs:

- **Surgical ICU** - 20 Bed Capacity
- **Medical ICU** - 31 Bed Capacity
- **Cardiac ICU** - 10 Bed Capacity
- **Paediatrics ICU** - 20 Bed Capacity
- **Neonatal ICU** - 10 Bed Capacity (06 - Inborn & 04 - Out born)
- **Neuro ICU** - 13 Bed Capacity

- Well equipped with high end ventilators, cardiac monitors with modules, syringe pumps and all facilities for Life Support, these help provide the best medical care by qualified doctors and nursing staff for critically ill patients.
- Bedside and centralized monitoring systems and invasive monitors are available for each bed.
- Each ICU bed has centralized medical gases, compressed air & suction and has a standard nurse - patient ratio in ICU.
- The NICU has incubators, ventilators, neonatal resuscitation tray, warmer, a separate feeding room etc.
- State of the art Ventilators and On fusion Pumps are provided for each patient
- Emergency portable bedside 2D Echocardiography, USG and X-Ray are available for better patient diagnostics.
- Isolated bed available for high risk patients
- This is supported by a well equipped round the clock diagnostic Laboratory.
- C-PAP machine for non-invasive ventilator support complement the ventilators as well.
- Warming Blankets for maintaining optimal patient temperature.
Paediatric Intensive Care Unit (PICU)

Facilities available Services

- Hyper pyrexia room and Ventilators
- Multipara monitors
- Pulse Oximeters
- Infusion pumps
- Defibrillator with ECG Machine
- Glucometer
- Nebulizer Machine
- X-ray Machine
- Non Invasive Nasal CPAP
- Bain Circuit

Tertiary facilities are available for critically ill patients.

- Severe respiratory, cardiac or any systemic illness
- Poisoning Cases
- Chemotherapy
- Staffed by trained nurses and senior residents round the clock.
Neonatal Intensive Care Unit (NICU)

A highly skilled and dedicated team of doctors and sisters run the NICU

Infrastructure:

- 10 cradles in NICU
- Separate Inborn and Outborn baby sections
- Inborn - 6 cradles; Outborn - 4 cradles
- An area is available for the mothers to breastfeed the recovering babies.

It has got all the modern facilities like

- Open care warmer with servo control
- Ventilators for neonates
- Central ABG machine
- Multipara monitors
- Pulse oximeters
- Infusion pumps
- Defibrillator with ECG machine
- Glucometer
- Nebulizer machine
- X ray machine

The NICU provides the following services

- Exchange transfusion
- Parenteral nutrition
- Surfactant administration
- Ventilation
- Dialysis
SURGICAL INTENSIVE CARE UNIT (SICU)

Surgical intensive care unit is well equipped with latest monitors and managed by well trained Anaesthesiologist, Intensivist and residents specially trained in managing critically ill patients.

Facilities available are:

- 10 ICU beds
- Multipara monitors
- Central oxygen, Suction facility
- Emergency crash cart with all equipment and emergency drugs
- Philips biphasic defibrillator with AED
- Syringe pumps
- Infusion pumps
- Mechanical ventilators
- Portable x-ray machine
- Continuous power supply with generator backup
- Pulse Oximeters
